BLOOMING EVENTS INTERNATIONAL
CREATIVE DESTINATION MANAGEMENT

August 20, 2014

Dear Orlie Jedwab,

Key Transportation Service has been a highly valued partner to Blooming Events. We know that ground transportation is the first and last impression which is why we rely on Key....because they get it. We solely rely on their expertise, professionalism, honest suggestions, product awareness and loyalty.
Key takes the time to fully understand the overall needs of each event so they better understand the vision of the end client. They are always ready to assist, always ready to provide and always ready to make it happen!

Their drivers are very professional; always dressed to the T and on time! The dispatch operators are very courteous and solution oriented. The coordinators are diligent and strive for flawless logistics. The greeters are extremely approachable, helpful and resourceful. The whole team is great!

Recently, we were awarded a ground transportation contract at the Fontainebleau Hotel.
Key Transportation provided 450 round trip transfers, over 30 charters for dine-around, stand by cars, rep service hand and managed changes from the client. I was at the helm of the group, receiving all of the communications from the client and in turn, responsible for communicating them to Key...they did not miss a beat and better yet, checked my work to be sure all of the information was accurate. The Team worked late hours to ensure all of the many changes were updated and ready for the next day. Basically, they had my back.

I HIGHLY recommend Key Transportation Service to anyone who requires worry free experiences and/or a true partnership in business.

Shea Petrella
Director of Event Management
Blooming Events International
